EDUCATION

Texas A&M University, College Station, Texas — May 2027 (anticipated)
Doctor of Philosophy in Computer Engineering

Sharif University of Technology, Tehran, Iran — February 2021
Master of Science in Electrical Engineering

University of Tabriz, Tabriz, Iran — September 2018
Bachelor of Science in Electrical Engineering

EXPERIENCE

Graduate Research Assistant, Advisor: Prof. Joshua Peeples — January 2024 – Present
Texas A&M University, College Station, Texas

- Improved AI models performance by 11% through feature engineering for audio/time-frequency data.
- Introduced a parameter-efficient transfer learning method for foundation audio transformer models, significantly reducing tunable parameters compared to standard adapters.

Graduate Research Assistant, Advisor: Prof. Roozbeh Jafari — September 2022 – December 2023
Texas A&M University, College Station, Texas

- Developed AI models for physiological time-series signals analysis and prediction.
- Devised physics-informed neural networks for cardiovascular dynamics, decreasing required ground truth training data by an average factor of 15.
- Served as Helper/Area Chair for Applied Signal Processing Systems at 2024 IEEE ICASSP, managing peer-review process and reviewer assignments.
- Contributed as Reviewer for 2023 IEEE ICASSP, evaluating three submitted papers.

Graduate Student, Advisor: Prof. Mohammad Fakharzadeh — July 2019 – February 2021
Sharif University of Technology, Tehran, Iran

- Developed low-power sensor for human mental stress diagnosis using supervised algorithms.
- Designed the schematics and PCB, programmed the microcontroller, conducted the data collection.
- Graded the assignments of Principles of Electronics course and resolved the disputes.

JOURNAL PAPERS
